COMPANY PROFILE

Incorporated in 1990, Courtenell is an OHS training provider who specialises in developing and delivering occupational health and safety training to help employers deal with their legal and corporate requirements for providing a safe, healthy and productive workplace.

We aim to give you effective and best-value training solutions.

Effective Training

Courtenell OHS training is

- practical
- relevant to your workplace
- engaging and interesting
- interactive

We understand that the learning experience is as effective as it is practical and we aim to focus training on group activities, case studies & practical exercises.

We tailor our training to the experiences and work situations of attendees and our trainers are renowned for their skill in making OHS issues relevant and tangible.

All our trainers are highly qualified and experienced and have extensive and wide industry experience in OHS, enabling them to engage participants fully and effectively and tie the subject in with real life situations.

In addition to WorkCover accredited trainers, we also employ qualified Chiropractors for our specialized Manual Handling training
