Working Safely with Hazardous Chemicals in the Workplace - Online Course

Exposure to hazardous chemicals in the workplace can lead to adverse short or long term health conditions, such as poisoning, chemical burns, and lung, kidney or liver disorders.

This course will provide you with an understanding of what hazardous chemicals are and how to work safely with them.

Learning outcomes

At the completion of the course, you will have an understanding of:

- the effects of hazardous chemicals on the body
- how you can be exposed to hazardous chemicals
- your rights and responsibilities
- how to find information about hazardous chemicals, and
- methods of controlling hazardous chemicals.

Course features:

- professional audio
- animation and interactivity
- multi-device compatible
- formative assessments, and
- a certificate of completion.

Estimated Duration

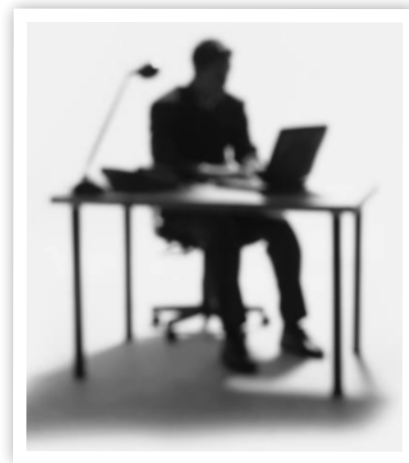

45 minutes

Target Audience

This course has been designed for those persons in the workplace who may come in contact with hazardous chemicals.

Cost

Cost is dependent on the number of people to be trained and the length of time they need to have access to the training.
