

Hazardous Chemicals for Supervisors and Managers Online Course

This course has been developed to provide people in supervisory roles with an understanding of how to manage hazardous chemicals in the workplace.

Learning Outcomes

This course will provide you with information about:

- your legal obligations in relation to the management of hazardous chemicals in the workplace
- the hazard management process as it applies to hazardous chemicals, which includes how to identify, assess, control, monitor and review their use
- the purpose of policies and procedures covering the use of hazardous chemicals
- how to develop and implement standard operating procedures (SOPs) and support these with appropriate training, and
- emergency planning considerations.

Course features:

- professional audio
- animation and interactivity
- multi-device compatible
- formative assessments, and
- a certificate of completion

Estimated Duration

60 minutes

Target Audience

This course is aimed at all managers of staff and for those responsible for the management of hazardous chemicals in the Australian workplace.

Cost

Cost is dependent on the number of people to be trained and the length of time they need to have access to the training.
