

Manual Tasks for Workers Online Course

This course has been developed to provide workers with an understanding of the risks associated with manual tasks and an awareness of how to perform those tasks safely.

This course has been independently reviewed by the Safety Institute of Australia and has been written in line with harmonised WHS legislation in Australia.

Learning Outcomes

- After completing the course, learners will have an understanding of:
- hazardous manual tasks
- how to assess manual tasks
- ways of reducing the risk of injury, and
- techniques for performing manual tasks safely.

Target Audience

The course has been designed to provide training for all workers who perform manual tasks in Australian organisations.

Cost

The cost is dependent on the number of people to be trained and the length of time they need to have access to the training.

Course features:

- professional audio
- animation and interactivity
- mobile compatibility
- formative assessments, and
- a certificate of completion

Estimated Duration

60 minutes
