

Biological Hazards Hazard Guide

This course has been designed to provide you with an understanding of the controls that should be applied to biological hazards in the workplace. This course has been endorsed by the Safety Institute of Australia.

Learning Outcomes

This course will provide you with information about:

- what biological hazards are and the activities that can expose you to them
- minimum safety requirements
- incident reporting
- risk management
- risk control review, and
- controls that should be applied to reduce the risk associated with biological hazards.

Estimated Duration

20 minutes

Target Audience

This course is aimed at workers who are already competent and is used as a sign off to confirm competence.

Cost

Cost is dependent on the number of people to be trained and the length of time they need to have access to the training.

Course features:

- professional audio
- animation and interactivity
- multi-device compatible
- summative assessments, and
- a certificate of completion
